Data protection statement

The undersigned note(s) that in individual cases, as part of parental advice, in addition to the key registration details, particularly sensitive and/or confidential personal details may be collected, processed and stored (e.g. health records, details of social security benefits, etc.). This data will be recorded in client documentation and stored by the canton of Graubünden's IT department, which will ensure it is stored securely. Access to client documentation is regulated and meets the applicable data protection regulations. The undersigned note(s) that exchange of data between healthcare regions is taken care of in the event of a change of place of residence. Data is transmitted in encrypted form and cannot be transferred to third parties. The data collected on a case-by-case basis is stored for a maximum of 10 years and is then erased. The data subject's right to information and inspection, as well as the data subject's right to rectification, are assured. Requests to this effect should be submitted to the Graubünden Department of Health. All data is treated in the strictest confidence.
